

Year 1 Curriculum Leaflet.

Maths

In maths, we will be learning a variety of new skills such as, counting, reading and writing numbers to 100, identifying one more/one less than a given number, adding and subtracting one and two digit numbers to 20 as well as finding and naming fractions for one half and one quarter. We will also be learning to apply our new skills to different reasoning and problem solving scenarios such as adding items on a shopping list.

English

In English, we will be basing our reading and writing units around core texts such as; Man on the Moon, The Giant Jam Sandwich, The Tiger who Came to Tea, Elmer and Avocado Baby. During each unit we will be learning a range of different grammatical skills which we will need to enable us to write in a number of ways such as; setting descriptions, instructions, character description, non-chronological report and a fairy tale narrative.

Science

In science, we will learn the names of the main human body parts, our 5 senses (taste, smell, sight, hearing and touch) and which body part is associated with each sense. During our animals including human's topic, we will be learning about different animals and how they can be grouped, we will then learn the name of a variety of common animals that are carnivores and herbivores. We will then learn the names of common wild plants, common garden plants and some common deciduous trees.

Music

In music, we will learn how to listen, imitate and perform phrases and short songs; how to perform using voice and percussion instruments focussing on pitch, beat and dynamics as well as looking at the pulse and rhythm in songs and responding to these through movement.

Geography

In geography, we will be learning about Blyth and Northumberland; we will be looking at the areas that surround Blyth and create our own tourist information leaflet from what we've found out. We will then look at The UK, Europe and the world where we will be comparing our country to other places in the world.

Religious Education

In R.E we will be learning about the Bible and how it is the holy book of Christianity that contains stories about God and Christian's relationship with God. We will also look at how Jesus told stories to teach his followers about important values such as how to behave and treat one another.

History

In history, we will be learning transport and how travel has changed due to different transport inventions. We will look at WWI and what life was like as a soldier during WWI before moving onto our local history unit where we will compare Blyth beach and talk about what is the same and what is different because of tourism.

Physical Education

In P.E, we will be learning how to move in different ways such as skipping, hopping, jumping and sidestepping. We will also be learning how to aim and throw accurately towards a target, how to catch and finishing off by performing an individual dance representing a growing flower and a bee.

French

In French, we will be learning how to count up to ten, know ten colours in French, be able to say the days of the week and the key sounds of the French alphabet. We will also be learning how to say 'my name is' and how they are feeling. We will also learn where France is located on a map, which other countries speak French and what the capital of France is.

Computing

In computing, we will be using Beebots to record an algorithm using directional flash cards to get a Beebot from a starting point to an end point. We will also be looking at how technology can be used to collect data and that this can be represented by using pictures.

Art

In art, we will be learning the primary colours; red, yellow and blue and that mixing these colours can make secondary colours such as purple, orange and green. We will also be looking at various drawings, paintings and sculptures before drawing our own self portrait in the style of our favourite artist.
